The Biggest College in the Country

Did you ever instantly know that you'd be totally fascinated by something you were reading? I mean, maybe as you continued to read it, and notice the shape of the letters, the darkness of the ink, and the whiteness of the page, it allowed you to GO INSIDE, and remember a time when learning was easy and fun

[u][b]~Matticus~[/b][[/u] says:

Dude, I think I love you

[u][b]~Matticus~[/b][[/u] says:

This system is perfect, I had no idea it existed
you're writing a book?

[u][b]~Matticus~[/b][[/u] says:

wow awesome, i'd love to read it

Mar:

You'll soon be famous at this pace...

Darlene: "I feel it, when you speak, things change"

Ivanir says:

voce e um otimo contador de historias

Ivanir says:

e um lindo poeta

Ivanir says:

you are very inspiring today

Daniela says:

**i have met smart people but cant tell if they're smarter or less smarter than you
someone with lots of abilities like u i have certainly never met**

B ianka says:

your words are perfect :-O

[19:54:37] Kelma says: seu livro é muito bom
eu vou precisar imprimir
parabéns pelo seu livro

my opinion is not that of the world

i'm one person

~Mary Ève~ says:

lol yes it is

mar emails:

Can you tell me who is Perry? not the writer, or the professor but the real one...(am I asking too much?)

ana says:

oh let me check

ana says:

OMG - you are good

ana says:

where have you been all this time?

Pery, Andrezza and Lia Conversation

Pery says: lets all write a poem together

Lia says: hahhaah a flash poem

Lia says: Paulo Leminsk!!!

**Lia says: i mean he is like u because u have this idea of writing
as a flash**

Subject: MÉTODO BARNES

He says:

I am a professor and I am looking for a method as I am decided that I will open a good English school in the axis Goiânia-Anápolis-Brasília (those are Brazilian cities in the middle of Brazil)

I got your contact through the internet and the indication of your phone many times linked to the Method Barnes.

I would like to know the methodology and resources applied as well as the possibility of applying the method to a conventional school.

I asked him at the answer to contact you. I said we did a partnership in translation that is why my name is there and that you are the creator of the method

Good luck

Best,

Gil

Gustavo says:

i really don't know what kind of man you are, sometimes you seem to be a teacher, sometimes... a musician and sometimes... a entrepreneur...

Subject: Re: MÉTODO BARNES

Gilseane Stefani,

Sou professor universitário e procuro o método porque estou decido a abrir uma boa escola

de inglês no eixo Goiânia-Anápolis-Brasília.
Consegui o seu contato na internet, inclusive com a indicação de um número de
telefone (07951048218), várias vezes vinculado do Métdo Barnes.
Gostaria de conhecer a metodologia e os recursos empregados bem como a
possibilidade
de aplicação do método numa escola convecional.

Se puder me ajudar, fico grato.

Jorge Bezerra - Goiânia / GO

Guto says:

lol

only you to make me laugh

lmao

**i like your ideas, u could become very rich, you can
sell ideas...**

Silmara says:

this is so great

Silmara says:

is it your idea

Silmara says:

wow i love it

I remember my first time . . . being absorbed into a story about something that intrigued me
enormously, even though the actual topic is irrelevant at the moment because it started quite
innocently as I first read with deep curiosity and anticipation, even during the opening paragraphs
of what I was reading, while I was more and more consumed into what it was I hadn't yet known,
and wanted to because the story wasn't just about the story as much as it was about desire: wanting
to draw me into an experience in my mind that was as real as could be inside in such a way that
whatever was on the outside didn't matter as much anymore and perhaps even at all because my
attention focused inside on the experience that was unfolding

Owen Fitzpatrick

Blue can go with green or brown
Green can go with blue or brown
Brown can go with blue or green

Why? Good question? Clearly there has to be difference. That is an undeniable pattern that can be seen everyday. But only if you are looking for it. Why are they doing that or doing this. Maybe the theory holds weight and you must apply their actions to it. You'd be surprised how an unexplainable situation can make perfect sense or how disturbed you'll feel when you understand how many people's minds work.

It can be good to realise that a certain combination of words can really make your path in life so much simpler as the mind has only limited resistance against the real rules. A text based formula can usually define how much resistance someone has against this. The mind may need 2 weeks of sustained reprogramming to at least cover up the past. It has been suggested that the mind is a permanent storage device and therefore memories can only cover the old ones. However, if the covering is sufficient and it disproves or removes the reasoning behind the old memories there is no need to refer to them.

I believe that the mind refers to past memories that are bad as a method of ensuring that future actions do not allow them to happen. Unfortunately this can apply extra pressure onto the consciousness of a person thus meaning that it does occur again. Continual reoccurrences can lead to drug abuse, a retraction from society and never suicide. I have gone off onto other things (or have I) but to return to the original trail, if various properties of the mind are evaluated through various techniques (not always definable) then an approximation can be made of the mind's realignment with nature's conventions. The ability to work to this idea can make tasks less stress but maybe worse in certain situations.

For example if you work with the rules for long enough you affirm them into your subconscious/long term memory and take them as a given. People enjoy freedom of choice; just look how popular Britain is as a permanent tourist resort (democracy, its right there). If you appear to be pressuring people too much, just as kids do they will do the complete opposite (whilst confirming the truth with their body language of course). The world outside of our inbuilt thoughts unfortunately still exists. Deal with it! I'm doing, believe me today. The world places many other responsibilities upon us that we have to maintain to sustain our place in the system. Just look at what happens to homeless people (nuff said methinks). Therefore knowing the real rules, it being a really bad idea to reveal them to people (debatable) and the right thing disappearing without you having any of the control that you had acquired/having no control can seriously lift your head up.

Thus we return with a bang to the real world with you having finally thought you had made some sense of it after all these years and realising the world is more effed up than you had previously imagined. Bummer! (bum her) However, the bright side of the black hole is that with these rules. You just need some time to fix the mind and health (same thing) and re-arm. For ignore the power of positive thinking that flips it around however it can. Consider that 5 years ago if I had written all of the character's in your current life in a screenplay or novel you could have told me almost exactly your path through the magma. Consider that you know these people better than they know themselves and then go for it.

What more do you want? The answer? I just gave it to you and so bugger off (cake to be kind). With these techniques you are 5 intelligent people rather than one. You can anticipate your

enemies moves by 6 months if you want to. You can even anticipate your enemies. Which target will they hit? Guide it there you wouldn't want them to miss. Bullets are expensive to manufacture nowadays so we don't want to wish them.

Blue Eyes are compatible with Green
or Brown Eyes

Brown Eyes are compatible with Green
or Blue Eyes

Green Eyes can go with Blue or Brown

People make their choices based on
these eye colours almost everyday

students keep teachers because their
eyes are compatible with each other

women cheat on husbands and boyfriends
for these colours

a man approaches 2 different women in the street, one is the same genetic type as him, they both have pink skin, blue eyes, blond hair.... she unexplainably shouted

yet the exact same words from brown eyes, dark skin, black hair causes her to automatically be receptive to his ideas

just pretend for a year that this is the true magic system... now lets consider the implications of this genetic type system

*in some countries people are encouraged to marry and have children with people of the same type

brown eyes with brown eyes etc....

maybe its law or tradition or whatever

then they travel to a country filled
with the correct type

the opposite type maybe...

and surprise surprise a wife of 10
years with 5 children has sex within
an hour with some guy she has no idea
about

in this system most things are
created equal...

all eye colours are equal...

really
seriously

blue eyes aren't better, people with
brown eyes spread the rumour that
they are
only for them, blue eyes are perfect
for people with brown eyes
and anyone with blue eyes can realise
how much they love brown eyes
if you don't believe in love, good, feel
how you want about them
and yet we both find ourselves
attracting to green eyes
we can't explain it
we like brown or blue eyes
we are certain
and green eyes aren't as attracted to
us as blue or brown

its quite rare to see a person stay
with the type that's not suitable

of course i've kissed
a girl who was the wrong type
when I was drunk at a party
that same girl dated one of my
friends 2 days after

guess what he had
got it?
Sarcov?

In the words of U2
"blue eyed boy meets a brown eyed
girl, oooooo woaah the sweetest thing"

eyes are significant and their colours

and also skin type

skin type is mainly based on
resistance to the sun is the main
element here

black skin is clearly the best type
offering fantastic sun protection

so much so that 50 or 60 year olds
look like 30 year olds to people with
weaker pink skin

thus pink skin + dark skin = excellent
sun protection for the next generation

time and time again you see people
travel 50,000,000,000,000 miles and kms
both!

To find someone whose their type

they spend all their money just to
find that type

then make babies until there are lots
of babies

its Like a balance: a medium height
with medium muscles finds a man with
tall height and wide shoulders

then she unexplainably
becomes attracting

she does everything she can to secure
this type of man and often he'll go
with nature's plan, nature's law

as the humans with their quaint
traditions did something to support
tribalism

the human species can become stronger
using a combination of the best
elements

i'm sure animals argued about that
"i'm sorry, you're my perfect GENETIC
CHOICE, I believe in saving the whale
and you want to live in wales, i'm
sorry that's just not cricket"

kno thanks
they feel like rabbits
and pump each other full of nature
juice

in the words of Bill Hicks
"lets UNITE and explore space in
peace, FOR EVER"

and let's consider some other things

apartheid in south africa
the nonsense racism in france
in every retarded neighbourhood in the
world

those f**ks probably
really really really love dark skinned
people

they dream about love and weddings
and making babies all day, all night

the racists actually Love the People
they hated

hahahahahahahahahahahaha

and

hahahahahahahahahahahahaha

ahahahaahahahahahahahahahaha

that's so funny!!

so in this book I do declare
that humans are all equal
dark skinned people have better sun
protection, stronger muscles
who wins the marathon's every year?
Who are the heavyweight boxers?
The best people in the world

if you have pink skin > find some
dark skin and make babies

if you have green eyes find some
brown eyes

if your shoulders are big find a
medium body girl with large breasts in
proportion to her body

our genetic choice also spreads to
culture I am here to announce

upper class people search for working
class people due to the advantages
for them and for future children

the twin advantages

working class people have to learn to
fight and to defend themselves

they are survivors, and evil exists in
both upper and working classes

i'm announcing that a smart working class guy and an upper class girl are much better genetic choices than a smart person from their own classes she has the business sense and books smarts to raise his level and he has the street smarts to raise her level and realise the children who have the advantage of both worlds

if you choose to speak mainly to your correct type, your life shall be much easier, nature is going to help you

you can use this information to read people, you find a person with blue eyes containing an amount of yellow... her husband has totally blue eyes

these types are too near
what happened?

They married the 1st person they met?
other qualities were very matched
thus eye colour was considered non
essential?

Remember that most people don't yet
realise genetic choice (dr barnes
recommends you use this information
to help you) they marry people based
on other ideas

the yellow:blue with blue eyes I spoke
about, she said the story of how she
met her husband,

basically her grandmother said she
marry him

it was a recommendation

is this what the world is today?

A recommendation is stronger than
nature's law?

Maybe it is

consciousness as richard bandler says
is one of the strongest forces on this
planet

maybe we can override our natural
impulses if we must
is it healthy to do so

results time and time again show the
natural order of eye colours
there isn't one
you'll find people whose 1st marriage
was to a green eyes when they had
blue eyes
quite a good match

then their following 2 marriages
blue eyes then goes with 2 brown
eyes and spends longer with them than
anytime spent with green eyes

OPPOSITES ATTRACT

blue eyes = white skin (often)

green eyes = in between skin

(sometimes you see people who had 1
white and 1 black parent with green
eyes for example)

brown eyes; dark skin (90% in the
time)

by fun mixing these elements we can
create blue eyes with dark skin (this
seems to be special somehow, I haven't
found how yet)

brown eyes with white skin (doesn't seem to be as special as blue eyes with dark skin, another piece in the puzzle to find)

Eye colour	Compatible and Suited to
Blue eyes	Brown eyes or blue eyes (blue eyes must have some variation, like a yellow section to be compatible, look at people's eyes you'll see its true)
Green eyes	Blue eyes or brown eyes (often I see a girl obviously wanting to talk to me and I already checked her eyes, they were blue, so i'm confused... then I look again and she has green eyes... I test this system a lot (I have blue eyes) if I wear a brown shirt, it changes the perception of my eye colour and other types ex: blue eyes pay more attention to this genius
Brown eyes	They like green eyes or blue eyes, if 2 people marry when they both have brown eyes, expect them to have affairs, PS: sometimes I take advantage of this situation... thus the question is... am I married or not =)

Examples of good all round matches:

Brown Eyes, dark skin, black hair	Blue Eyes, white skin, blond hair
Green Eyes, medium skin, black hair	Brown Eyes, dark skin, black hair
Green Eyes, medium skin, black hair	Blue Eyes, white skin, blond hair
Blue Eyes, white skin, brown hair	Brown Eyes, white skin, black hair

barnes says:

the basic idea is people behave according to their
eye colours
weird eh
yes you like blue eyes
and this is because u are part of a system
i sound crazy yet?

Gustavo says:

mine are brown...

barnes says:

yes
this is why u like blue eyes
i know this before i meet u

Gustavo says:

hahaha

barnes says:

u probably like green eyes too

Gustavo says:

yes, you're so fuckin' right!

barnes says:

since i was 16 i noticed people behave according to
these
most guys talk to girls with the same eye colour
a mis match

Gustavo says:

that's interesting...

barnes says:

and the girls hate them and they don't understand why
ok
good
i'm glad i published
i only told this to one guy because he told me his
invention in science
i thought
fuck it
just publish
this system is good for u because i u will know which
men you can turn to gay
and which would be harder

Gustavo says:

I see...

barnes says:

i am friends with many foreign people because it
makes my life easier
(they fit with my type more frequently)
for example
today a portugal guy in the cafe gave me a discount
and i have no idea why

BARNES VS ASH

its
about eye colours
and rather than guessing
oooo i really like blue eyes
there's a system
before i met u i knew you would like blue eye
s
and you also like green eyes

Ash says:

how?
=)

luis joia says:

i'm really enjoying this
guto said similar yestoday
because
brown eyes are part of the system
brown eyes like > blue and green
for some reason they need difference
for you to be happy in a way
you should date or sleep with men with your type
i'm guessing ur hubby has brown eyes
and
i don't believe like many people have done
that blue eyes and blond hair are better
wrong wrong wrong
some say that brown eyes are a dominant gene
they cancel blue eyes
i have observed familys that follow this rule
and hair links with skin type
black hair, brown eyes, dark skin
its a pattern

Ash says:

Luis.. mine is brown eyes.. black to brown hair

thus blond hair is not special
its linked with white skin

luis joia says:

to achieve evolution or hapiness or chocolate, must
have for example
me and your type together is a perfect match
just by appearence

Ash says:

**really? =) (me and this girl are friends for 1 year already and we still talk
like girlfriend boyfriend even though she's got married in between)
maybe we are not compatible by personality**

hey
ash

Ash says:

yes?

luis joia says:

maybe i become super famous for this idea
then i come and give talks in india and saudi

Ash says:

wow!

i told 1 friend about this years ago
and i said
everyone knows it!

Ash says:

but your security guards wont let me to talk to u

luis joia says:

its right in front of u
in the u2 song "blue eyed boy meets a brown eyed
girl, woahahahha the sweetest thing"
its everywhere when u start to notice it
my security guards are trained to bring ashy to me
if they harm her

Ash says:

=)

luis joia says:

i shoot them in the head
i'm a nice guy really
i'm gandhi with a gun
listen

song for ashy

Ash says:

**Gandhi with a gun?? hahahahahhahahahahaha
you can never ever see Gandhi with a gun!!!**

luis joia says:

me

the points of my book is

racism is total nonsense

genetically

the racists have blue eyes

secretly they love the africans and indians

they're in the system

Ash says:

Luis... have u seen the movie "outsourced?"

luis joia says:

no

tell em

Ash says:

hmm,, it's a fantastic movie

luis joia says:

i'm gonna seduce an indian by bollywood dancing

i'm just decided

cos its fits their fantasy

Ash says:

**an american comes to Indian for BPO & call centre things
and he loves an Indian girl who is already engaged to marry her
childhood friend when she was 5**

luis joia says:

i put this in the book too

evidence

Ash says:

ohh =)

luis joia says:

i thought indians no like british

why u watching their news

hmmmmmmmm

blue eyes brown eyes strikes a gain

Ash says:

=) =)

luis joia says:

i am the best scientist in the world!
and i don't like science!
i got a double g grade
ahhahah

Ash says:

=)
